

### **Open position Clinical Trial Manager**

DGr Pharma, member of the Symeres group, is a young and dynamic consultancy company with a very strong client base. DGr Pharma is specialized in guiding drug development programs from end lead selection to Phase II clinical development. To expand and strengthen our support in clinical drug development, we are searching for an organized Clinical Trial Manager to implement and oversee projects, and to ensure quality of trials. The job includes the hands-on coordination of clinical studies. The Clinical Trial Manager collaborates with the relevant people to design the studies, review budgets, make changes where necessary, and outline studies together with client and clinical monitoring team. The Clinical Trial Manager will work with and oversee Clinical Research Organizations and other vendors that are contracted to conduct the studies on behalf of our clients and will be involved in the writing and review of protocols and other technical documents and reports.

To be successful in this role you need to ensure the project meets the client's goals within budget and on time. Top candidates are proficient multitaskers, client-oriented and have the ability to prioritize tasks.

#### **Clinical Trial Manager Responsibilities:**

- Collaborating with Project responsible to set targets for clinical monitoring, and ensuring recording of trial in compliance with project goals.
- Creating and implementing study-specific clinical monitoring tools and documents.
- Creating and overseeing trial budget.
- Identifying, enlisting and choosing sites, and coordinating site management activities.
- Coordinating and supervising clinical monitoring.
- Recording and sharing interactions with client, and acting as their representative.
- Arranging and overseeing site visits.
- Gathering and examining trial documents.
- Assuring compliance with SOPs and local regulations, and CFR, ICH and GCP guidelines.

#### **Clinical Trial Manager Requirements:**

- Bachelor's degree in nursing or life sciences.
- 5+ years work experience for pharmaceutical company or related field.
- Outstanding communication skills, both verbal and written.
- Proficient with Microsoft Office Word, Excel, and Project.
- Ability to work independently and prioritize duties.
- Understanding of Electronic Data Capture (EDC).
- Available to travel.
- Valid driver's license.
- 

DGr Pharma is based in Breda, the Netherlands, and working on-site for at least 2 days a week is required.
